Pelaksanaan seleksi aktivis *Baḥth Al-Masa'il* terhadap pengembangan keilmuan santri ini memberikan dampak positif diantaranya ialah melatih *public speaking*, menganalisis permasalahan, mendayagunakan potensi diri dari karya-karya ulama terdahulu dan melatih kecerdasan berpikir kritis.

## ABSTRACT

ASYUARI, A. ZAEINI MISBAAHUDDIN. 2023 Santri Scientific Development Through Selection of Bahth Al-Masa'il Activists at Madrasah Hidayatul Muftadiin Lirboyo Kediri, Islamic Religious Education, Tarbiyah, UIT Lirboyo Kediri, Supervisor Makhfud, M. Pd.I

**Keywords:** Scientific Development, Selection of Bahth Al-Masa'il Activists, Madrasah Hidayatul Muftadiin Lirboyo

This thesis discusses the scientific development of students through the selection of Bahth Al-Masa'il activists at Madrasah Hidayatul Muftadiin Lirboyo Kediri. With the aim of knowing the selection of Bahth Al-Masa'il activists at Madrasah Hidayatul Muftadiin Lirboyo Kediri.

This research is a field research with descriptive qualitative research type. Namely a type of research intended to manage data collected through structured interviews. The analytical approach used is descriptive analysis.

In this study, the results obtained were: The form of implementing the selection of Bahth Al-Masa'il activists at the Hidayatul Muftadiin Lirboyo Madrasah was through various deliberation forums and Bahth Al-Masa'il. The results of the implementation of the selection of Bahth Al-Masa'il activists were carried out through several stages: First, recruiting Bahth Al-Masa'il activists through the Lajnah Bahth Al-Masa'il special program such as the implementation of sorogan, takhasus and deliberation forums. Second, capturing class-level Bahth Al-Masa'il activists through the Kubro Deliberation Program (MUSKUB), joint deliberations (MUSGAB) for Tsanawiyah level students. Deliberation program fathul qorib and Al-Mahalli for Aliyah level students. Third, capturing Bahth Al-Masa'il activists through Bahth Al-Masa'il at the Islamic boarding school level.

The implementation of the selection of Bahth Al-Masa'il activists for the scientific development of students has had a positive impact including training public speaking, analyzing problems, utilizing self-potential from the works of previous scholars and training critical thinking intelligence.
